

CME sessions at 15th GHS meetings in Hyderabad, India - January 05-07, 2022

Report prepared by Sharma Prabhakar MD MBA FACP FASN, Chair of GHS CME sessions (2022), Professor of Medicine and Physiology, Vice-Chair, Department of Medicine, Texas Tech University Health Sciences Center, Lubbock TX USA

The CME lectures, which form an important and integral part of the Global Healthcare Summit were again a blast this year. A total of twelve CME lectures were delivered during the three days of the meetings. The lectures were all well-structured with defined objectives, relevant to current medical problems, and underscore the theme of the meeting— “Prevention is better than cure”. We had 5 lectures each on day 1 and 2 (5th and 6th January 16, 2022) and two lectures on the last day (7th January 2022) as part of lifestyle medicine symposium. The speakers on the first day included Drs. Belani (Malignant hyperthermia), Krishan Kumar (Weapons of Mass Destruction) Amit Chakrabarty (Prostate Specific Antigen) VK Raju (Cataract Surgery) and Ravi Kolli (Prevention of mental illness). The lectures on the second day were given by Drs. Vijay Yeldandi (COVID19 with focus on Omicron) Sharma Prabhakar (Prevention of CKD), Nikhil Bhayani (Hospital infections in COVID 19 patients), Satheesh Kathula (Cancer prevention by lifestyle changes) and Kalpalatha Guntupalli (Case discussions). The two lectures on the last day were delivered by Drs. Bhoja Reddy and Gokul Murthy focused on Lifestyle Medicine. Throughout the sessions the theme of prevention resonated with some parts additionally reflecting the status of these medical issues on the Indian scene. All the talks were screened and approved for CME credit by the Chicago Medical Society.
